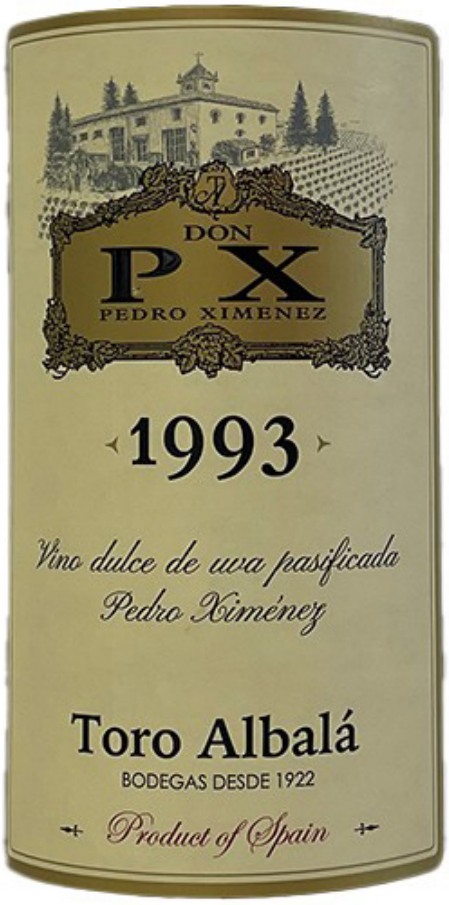
Toro Albalá
DON PX - 1993

REGION: SPAIN - ANDULUCIA



THE WINE

Vineyard Profile

Vineyards in the Sierra de Montilla and Moriles Altos zones of D.O. Montilla-Moriles.

- Soil: Chalky white Albariza
- Climate: Hot, dry summers

Harvest Notes

- Grapes harvested in mid-August
- Dried under the sun for 7 -9 high temperature days
- Pressed, sweet must fortified with neutral grape spirits and left to rest for 12 months in stainless steel tanks
- Aged in American oak butts for 28 years, topping with wine from the same vintage

Winemaker's Notes

Dark mahogany. Its movement tints the glass with iodized tones. Raisined fruits (grapes, plums, dates, dried peaches) and an orange peel citric touch. Notes of licorice, coffee, cinnamon and cocoa. Sweet and velvety, which offsets the acidity and bitterness and creates a pleasing, balanced palate.

Technical Information

- 100% Pedro Ximenez
- Alcohol: 17%

TORO ALBALÁ

Founded in 1844, this prestigious family estate is located in Aguilar de la Frontera in the P.O.D Montilla-Moriles zone. Antonio Sánchez, the third generation of the family, owns the estate today.

One of the largest Andalusian viticulture zones, the region is known for the production of Fino and the cultivation of Pedro Ximénez grape. There is a considerable presence of albariza soils.

In 1922, José María Toro Albalá moved to the current location in Aguilar's old power station, introducing updated technologies and establishing Toro Albalá as a leader in Montilla. Toro Albalá became the first Montilla producer to bottle Dessert Pedro Ximénez in 1970, a product historically sold in bulk to producers and shippers in D.O. Jerez-Xérès-Sherry for aging and blending.

Toro Albalá is recognized as one of the
