

# Niederösterreich, Austria

## HISTORY

Established in the early 1960s, Weingut Leth has become a renowned winery in Fels am Wagram in just three generations. The Leth family are members of the Traditionsweinguter Österreich (association of traditional wineries in Austria), and believe it is their obligation to express the characteristics of their region, their soils, their climate, their grape varieties and cellars in their wines. Franz Leth, Franz Jr. and the entire Leth family are committed to these ideals.

## VINEYARDS

The Wagram region of Austria is home to Europe's most extensive loess soil formations. The region formed when glacial winds blew fine particles of agglomerated clay, sand and lime – loess – onto the prehistoric bedrock of the ancient course of the Danube river. The layers are up to 20 meters deep, and enable vine roots to delve deeply and absorb water and nutrients from the mineral-rich subsoils. The benevolent climate combined with the wide temperature variation from day to night create the perfect conditions for creating unique terroir wines.

## WINEMAKING

The Leth winery is situated in the heart of the Wagram wine-growing region in Fels am Wagram. The Wagram offers excellent conditions for viticulture, with its loess slopes. The main grape varieties grown here are Grüner Veltliner and Riesling. It is the aim of the Leth family to vinify first-class and high-quality wines in the most natural way possible.

### Appellation

Wagram

### Year Founded

1960

### Proprietor

Franz Leth Family

### Winemaker

Franz Leth Jr.

### Annual Production

25,000 9L cases

### Varieties Cultivated

Zweigelt  
Roter Veltliner  
Riesling  
Grüner Veltliner

### Farming Practices

Sustainable
